

### TESTIMONIAL – MCA Print Solutions

I am delighted to be able to write this open testimonial in support of MCA Printing Solutions of Rotherham. We have been working with them for nearly two years and the savings they have brought to the school in terms of printing have been incredibly significant. Waste printing by all staff and, in particular, students has dropped massively adding all the times to the savings.

It is not just the costs however. Any good partnership between supplier and customer is built upon trust. The service offered by MCA instils such trust. They respond quickly and professionally to requests but also offer ideas and suggestions to improve the quality of the printing work we do.

For us the biggest difference has been in the quality of the work being printed. The ability to produce our own bespoke booklets effortlessly from the print menu on your computer or produce banners for heading up and displaying work has made a huge impact across the whole school. With colour printing affordable, and the quality so good, the resources now put in front of students are engaging and inspiring. The imagination of staff in the production of their resources is wonderful and the vibrant range of resources across the school is great. The use of photos in lessons to provoke thinking and discussion and the ability to scan and email images from the printers to colleagues or students are two more examples of how their products support teaching and learning.

There was a time period for this to settle in but with MCA alongside to support with staff training the transition was smooth and the results far outweigh any difficulties presented by a centralised printing solution.

I have been delighted to work with MCA and would recommend them unreservedly to any school.
